

## URGES SANITATION OF WATER SOURCES

Commissioner Matthews Submits Report of Department to Mayor.

### DOCUMENT SHOWS AN INCREASE OF EXPENSE

Work of Keeping Canals and Flumes in Repair Described.

Land and Water Commissioner F. M. Matthews has filed his annual report with Mayor Brandford, covering the various matters over which he has jurisdiction. The financial portion of Mr. Matthews' report is as follows:

Expenditures.	
Superintending	\$2,122.45
City Creek	1,067.72
Emigration canyon	57.50
Parley's canyon	2,455.81
Jordan and Salt Lake	2,340.54
Big Cottonwood canyon	615.25
Barn and storehouse	78.21
Claims and damages	262.25
Hay contract	1,202.94
Total	\$12,209.59
Credits.	
Hay account in storage	
and sold (including various departments)	\$2,641.31
Water rent (Utah and S. L. C. compromise for water used in 1907)	400.00
Water rent	5.00
Claims and damages	10.00
Wood hauling	8.00
Warm Springs (rent)	2,000.00
Gravel pit and land leases	1,166.65
Total	\$6,639.96

Recapitulation.	
General running expenses of the department	\$8,566.35
Total expenditures under special appropriation for labor and material	3,643.24
Total, including the \$1,202.94 paid on hay contract	6,642.98
Total	\$13,209.59
Credits Total receipts by credit (including hay account and delivered to various departments)	\$2,455.81
Total receipts by cash (hay, rents, claims and damages, etc.)	4,175.65
Total	\$6,639.96
Total expenditures	\$13,209.59
Total credits	6,639.96
Balance	\$6,569.63

From the foregoing figures the general running expense of the land and water department for the past year has been \$8,566.35, and the total expenditures under special appropriations for labor and material have been \$6,643.24.

### Increase of Expense.

The expense of the department for the year 1907 shows an increase over the year 1906 of \$247.48. The increase was made necessary as follows: The addition of a patrolman in Big Cottonwood canyon; the increase of wages of all patrolmen; the special appropriation of \$200 for cleaning and repairs in City Creek canyon; the special appropriation of \$600 for cleaning the ditches and weirs on the Jordan and Parley's canyons and Mountain Dell, done at the request of the City Attorney's office; also, \$150 for the labor on the Jordan and Parley's canyons; the Jordan and Salt Lake canal. The amount of the hay contract, \$1,202.94, is also included in the above figures.

As to the canyons from which water is secured, Mr. Matthews recommends that steps be taken to keep the canyons in a more sanitary condition and that the driveway be widened and straightened.

### Fields of Hay.

Parley's canyon has been patrolled during the entire year, and several arrests have been made in enforcing the law in relation to stock passing through.

The hay lands in Mountain Dell and Parley's canyon have yielded for the year 1907 169 tons 755 pounds of hay, at a cost under contract for cutting, haling and hauling to the different departments of \$7.50 per ton, making a total cost of \$1,202.94. For the year 1906 there were 190 tons 730 pounds. The falling off of the hay crop this year was due more to a wet cold spring than any other cause.

Regarding the Jordan and Salt Lake canal, the report says that the canal is twenty-six miles long and has more than 200 bridges and flumes to be kept in repair. As many of the bridges and flumes are in a decayed condition, the expense is considerable. Three men are now employed upon the Jordan and Salt Lake canals, and the following work was done: Bridges repaired 31; bridges and flumes repaired and covered with gravel, 255; flumes repaired, 2000 feet.

**Cost of Maintenance.**  
The general cost of supervision of the canal for the year has been \$292.50, and for repairing bridges and flumes, \$416.04; of that amount \$100 was used for the new tin in the old flume in Mill Creek, and I anticipate that it will be necessary to retain at least one man on the canal in the spring; if not only prolongs the life of the flume, but saves the water, and prevents a great amount of leakage which might cause damage suits against the city. Of the \$2500 appropriated March 25, 1907, for general repairs, there was a balance remaining December 31, 1907, of \$121.01.

Big Cottonwood canyon has been patrolled daily since March 13, 1907, from the lake to ten miles above, which covers the jurisdiction of the city. The canyon never having been patrolled previous to this time, was not in a very clean sanitary condition. It has been cleaned now and all chicken coops, barns, etc., moved the proper distance from the track.

### CHARGED WITH LOOTING U. S. MAIL POUCHES

WACO, Tex., Feb. 10.—John A. Gee, 39 years old, who was arrested in Bryan, Tex., Saturday, was brought here today. He is charged with the theft of two mail pouches at Temple, last December. The pouches were looted near Waco, and \$25,000 in money, orders, checks and drafts thrown into a small stream, while all the money in the letters was taken.

## RECEPTION TO PRODIGALS BY MAN WHO HELPS MILWAUKEE TO FAME

W. G. Schmall, Milwaukee brewer, from whom his two sons, August and Paul, seventeen and nineteen years old, respectively, ran away a few days ago and were picked up here and held at the city jail for the parents, did not fall upon their necks and weep when he arrived here Monday morning.

No, not he, instead of embracing them and telling them how glad he was to see them and a few other foolish things of a like nature, he fell upon them orally, with a round of abuse delivered in Dutch mixed with English. Seling, the seventeen-year-old, by a hand, he poured forth a torrent of invective that sounded like a rapid-fire gun in full blast at the enemy.

## SALT LAKE ELKS NOW IN LAND OF FLOWERS

Excursionists From Zion Arrive on Schedule Time and Are Royally Welcomed.

Special to The Tribune.  
LOS ANGELES, Feb. 10.—The Salt Lake Elks' special excursion trains over the Salt Lake Route, arrived at Los Angeles this afternoon on schedule time. They were met at the depot by a reception committee of local Elks, who gave them a royal welcome. A party of the excursionists, who took an automobile ride around Pomona, missed the special, but arrived later in the evening.

The visitors established headquarters at the Hotel King Edward. Many of them, however, registered at various hotels. A visit to the snow-capped peak of Mt. Lowe is scheduled for tomorrow. Fifteen cars have been chartered for the trip, and a delegation of local Elks will accompany them. The balloon route will be taken Wednesday. A clam bake will be given at Santa Monica.

Heavy rain was falling at San Bernardino when the specials arrived there. The trip to Arrow Head springs was enjoyed in spite of this, however. When the excursionists arrived in Riverside the Chamber of Commerce greeted them. They were taken to a large orange grove and stocked the Pullmans with fruit.

## TWO SMALL EARTHQUAKES RECORDED IN WASHINGTON

WASHINGTON, D. C., Feb. 10.—Two small earthquakes, probably at a great distance from here, it was announced today, were recorded on the seismographs at the weather bureau during Saturday night and Sunday morning. The first quake occurred at 10:38 p. m. and the second at 10:48 p. m. The disturbance of its great distance from Washington, or to both these causes, certain details characteristic of well-defined records of distant earthquakes were lacking in the records of both shocks.

The first shock began apparently at 9:29 p. m. Saturday, 78th meridian time. The strong motion was greatest in the east and west direction and was recorded from 10:38 to 10:48 o'clock, the maximum motion of the ground being only one-tenth of a millimeter. The customary formula for determining the distance of origin gives in the present case a distance of over 8000 miles, but the imperfect record renders such a computation unreliable.

The second earthquake was smaller. The strong motion was recorded from 10:38 to 10:48 a. m., and about the same amount of motion was recorded in all directions.

## NEW WIRELESS STATION FOR SOUTHERN CALIFORNIA

VALLEJO, Cal., Feb. 10.—Electricians from Mare Island are to install a new wireless station at Point Arguilla, in Southern California. A half-dozen men have been detailed to the station, and will leave the yard for Arguilla during the present week. Point Arguilla is one of the first stations established on the coast under the jurisdiction of the equipment department of Mare Island. Although its work has been successful, the Navy Department has determined to equip it with stronger apparatus. The station will be practically rebuilt. Orders have been received at Mare Island for the cruiser California, Captain V. T. Coffman commanding, to leave here February 12, for the station. The vessel will remain in southern waters several weeks, after which it will be ordered to Mare Island for needed alterations, recently recommended to the Navy Department.

## MCDONALD CASE GOES TO JURY TODAY

CHICAGO, Feb. 10.—The final plea in behalf of Mrs. Doris McDonald, on trial for the murder of Webster Gurlin, was delivered today by Attorney Benjamin Shaffer and J. Hamilton Lewis. The latter's speech proved such an attraction to the public that extra details of policemen were sent to keep the crowd from entering and finally a policeman in the face and was arrested.

Like Attorney O'Donnell, who delivered the opening argument for the defense, Attorney Lewis emphasized the sex of the defendant in his address to the jury. "The man who makes the same rule for a woman as for a man, or who claims to understand her, not only shows his ignorance, but also how unfair he is," was one of his arguments.

The case is expected to go to the jury tomorrow afternoon.

## MYSTERY HANGS OVER TRAGEDY OF TENDERLOIN

NEW YORK, Feb. 10.—A night spent in hilarity by three women and three men ended early today in a tragedy, when one of the women, known as "Queenie," a girl who is said to be Mrs. Annie Conning of Delaware, was shot to death in a trolley car on Second avenue. The body of the girl was found in a trolley car on Second avenue, and a shot accidentally fired from a pistol in her hand killed "Queenie," but the police authorities are of the opinion that the element of mystery still hangs over the case in the disappearance of the men of the party, who have not been seen since the shooting took place. The Conning woman has been held without bail to await the coroner's inquest, and Rose McGuire, who also was in the party, is being detained as a witness.

## Four Badly Scalded.

VALLEJO, Cal., Feb. 10.—Boiler tubes on the cruiser St. Louis blew out at noon today while the St. Louis was at Sausalito. E. E. Scott, Thompson, water tender; E. W. Baker, fireman of the first class, and D. Lewis, fireman of the first class, were horribly scalded with steam.

Finishing his harangue with a question as to what they had done with the fine overcoats they wore when they left Milwaukee, he roughly yanked them from the jail and started for the railway station to leave for home.

The boys left home, they said, because their father took the money they earned learning the printers' trade from them and would not allow them spending money Sundays. Appropriating \$140, that belonged to their mother, they started for San Francisco. At Grand Junction the older lost his transportation and they turned their overcoats to get Paul transferred to this city. They arrived here broke and were immediately picked up by the local police.

## GOMPERS SEES LABOR CRISIS APPROACHING

President of American Federation Declares Men Will Not Submit to Conditions.

WASHINGTON, Feb. 10.—Seventy-five delegates met here today to inaugurate a movement for the organization of a department of building trades of the American Federation of Labor, in accordance with a resolution adopted at the last annual convention of the federation. President Gompers of the federation welcomed the delegates. Mr. Gompers, among other things said:

"Yesterday there appeared in the newspapers an interview with J. Pierpont Morgan, the greatest financier of our country. The interview was published in two newspapers. One of them sent me a telegram asking for an answer to Mr. Morgan's statements. I shall read the telegram and give the substance of the interview, and I shall want to say a word or two in regard to it. 'In an interview published today J. Pierpont Morgan declared labor must learn that it cannot control industry. Renewals of employment are not wanted unless the laborer is willing to be forced to work for less wages than he is now getting. There are no stocks on hand, you know,' says Morgan, 'and we do not want to work for less wages than we are now getting. They will have to submit or they will starve. The question is to be settled by the market, and they cannot control industry.'"

Believes Morgan's Denial.  
"This morning I saw published Mr. Morgan's repudiation of that interview. Of course Mr. Morgan is a man of millions of dollars, and I am not, but notwithstanding the opposite positions occupied by him and myself, I am free to say that when Mr. Morgan says that labor must learn that it cannot control industry, I believe him."

But it is the thought itself to which I want to allude, and not to the statement Mr. Morgan may not have said what is attributed to him. I know that that thought is in the minds of a large number of employers for a considerable time. And that is the thing. In the same paper which that interview is published is a statement that in New York City thousands of children go hungry to school, and as a result are not only incapable of learning the lessons satisfactorily, but that they cry for food and sometimes faint at their benches because of hunger."

Must Stand Together.  
"The American workmen have come to the conclusion, if I have any conception of their thoughts, that the wages and their expressions, that the condition that obtains in other countries, where there are large armies of the unemployed, will not obtain in the United States; it will not be tolerated. If we permit it it will be our own fault, and we will have failed in our duty to each other, to our fellow-citizens of today, and the days to come. But we are true to each other; we are intelligent and we are sympathetic. We are earnest and honest, loyal citizens of the United States, and true to the traditions of our country. We will not submit to a reduction in their wages, there is no necessity for it, there is no excuse for it. It is not helpful; on the contrary it is harmful, injurious and destructive."

PLOT TO WRECK  
TRAIN IS FOILED

JOLIET, Ill., Feb. 10.—What is believed to be a deliberate plot to wreck the Santa Fe fast mail, carrying two coaches of passengers, was foiled yesterday, from Chicago to Kansas, was foiled through an apparent mistake of the railroad. The plot was in the placing of obstructions on the track, which was east-bound instead of west-bound. A number of ties were placed in an upright position on a bridge over a small creek a mile north of Lockport. Then several ties were placed across the track and an effort was made to pry up one of the rails on the bridge. A north-bound freight train ran into the obstruction and was wrecked, but no damage further than that was done, as the train was going at a slow rate of speed.

Humors feed on humors—the sooner you get rid of them the better—Hood's Sarsaparilla is the medicine to take.

## NOTICE

Notice is hereby given that a special meeting of the stockholders of the Castro Gremlin Mining Company (a corporation organized and existing by virtue of the laws of the State of Utah) for the purpose of electing a board of seven directors and the transaction of such other business as may lawfully come before it, will be held at the office of the company, room 2, 223 West Second South street, Salt Lake City, Utah, on the 27th day of February, 1908, at 2 o'clock p. m. of that day. All persons having claims against the said Castro Gremlin Mining Company are hereby notified to present the same duly verified, to the company at its office, No. 15 West Second South street, Salt Lake City, Utah, within thirty days from the date of the publication of this notice. All claims not so filed will be forever barred, and the holders thereof estopped from afterward asserting them against the defendant corporation.

This notice is published under an order of said court, in said entitled, action, dated February 9, 1908.

This notice will be published for ten consecutive days. The date of first publication is February 10, 1908.

15 West Second St. Salt Lake City. C. S. Patterson, Attorney for Receiver, 87-88 Commercial Block, Salt Lake City.

## NOTICE

Notice is hereby given that a special meeting of the stockholders of the Biscuit Mining Company will be held at the office of the company, 529 Atlas block, No. 34-B West Second South street, Salt Lake City, Utah, on Friday, the 21st day of February, 1908, at 10 o'clock a. m. of that day. Said meeting is called for the purpose of adopting and ratifying the resolution presented and unanimously adopted at a special stockholders' meeting of the Biscuit Mining Company, held in the company's office, the 26th day of December, 1907, at 10 o'clock a. m., which resolution was as follows: Resolved, That the directors of the Biscuit Mining Company be authorized to borrow money for the company's use and that the president and secretary be authorized to execute notes or bonds, secured by a mortgage upon the company's property therefor. And to confirm the acts of the board of directors in borrowing money for the company's use and in giving a mortgage and other security, which acts of the board are to be ascertained at the company's office.

To pass such other resolutions as may be proposed and determined upon by the stockholders to authorize and empower the board of directors to borrow money and encumber the company's property to secure the payment thereof, and to make arrangements for the company's use and in giving a mortgage and other security, which acts of the board are to be ascertained at the company's office.

## NOTICE

Of a Special Meeting of the Stockholders of the Biscuit Mining Company.  
Notice is hereby given that a special meeting of the stockholders of the Biscuit Mining Company will be held at the office of the company, 529 Atlas block, No. 34-B West Second South street, Salt Lake City, Utah, on Friday, the 21st day of February, 1908, at 10 o'clock a. m. of that day. Said meeting is called for the purpose of adopting and ratifying the resolution presented and unanimously adopted at a special stockholders' meeting of the Biscuit Mining Company, held in the company's office, the 26th day of December, 1907, at 10 o'clock a. m., which resolution was as follows: Resolved, That the directors of the Biscuit Mining Company be authorized to borrow money for the company's use and that the president and secretary be authorized to execute notes or bonds, secured by a mortgage upon the company's property therefor. And to confirm the acts of the board of directors in borrowing money for the company's use and in giving a mortgage and other security, which acts of the board are to be ascertained at the company's office.

To pass such other resolutions as may be proposed and determined upon by the stockholders to authorize and empower the board of directors to borrow money and encumber the company's property to secure the payment thereof, and to make arrangements for the company's use and in giving a mortgage and other security, which acts of the board are to be ascertained at the company's office.

By order of the board of directors, JOSEPH S. HYDE, Secretary Biscuit Mining Company, Dated January 17th, 1908.

## STOCKHOLDERS' MEETING.

## COURT DECIDED

## IN HIS FAVOR

## Cooper Fought to Retain Formula Which Has Made a Fortune.

L. T. Cooper, the man who believes that 90 per cent of all ill health of this generation is caused by stomach trouble, is fast winning a national faith in his theory. His claim is now admitted by a surprising number of people throughout the country, and he is gaining new adherents every day.

While speaking of his success in a recent interview, Mr. Cooper said: "I have leveled ten years ago that any one who could produce a formula that would thoroughly regulate the stomach would have a fortune. When I got hold of this formula I knew within six months that I was right, and that my fortune was made. I called the medicine Cooper's New Discovery, although I did not get up the formula. I have owned it, however, for over three years. I have had one lawsuit over it, which I won in the courts. It was settled, and the Cooper Medicine company became the
